PIBD Hands-on Master Class

January
28th–29th, 2020

Shaare Zedek Medical Center – Jerusalem

This masterclass is a unique hands-on advanced training program in pediatric IBD at Shaare Zedek Medical Center, Jerusalem, led by Prof. Dan Turner. This rare opportunity consists of a full two-day educational PIBD training at an expert center. The program is focused on mastering practical skills required for the management of PIBD and includes case-based workshops (including actors) and sessions on writing a research protocol, bedside bowel ultrasonography, MRE reading, coordinating a multidisciplinary PIBD center, introduction to REDCap and SPSS, endoscopic dilatations, transition and support programs and more.

The aims of the program are:

- To discuss practical and contemporary aspects of PIBD management through hands-on workshops
- To present a multidisciplinary approach to individualized care for optimizing patient care
- To develop skills in imaging and tools for research

Guests Faculty:

Prof. Richard Russell, Glasgow
Prof. Peter Lewindon, Australia

5D in PIBD

Experience PIBD with your 5 senses

This educational event, sponsored by Janssen Israel, is designed for pediatric gastroenterologists and advanced trainees with a special interest in IBD.

Details and registration: tamaral@szmc.org.il

We look forward to welcoming you in Jerusalem!

Kind Regards,

The Anne and Joe Turner Paediatric IBD Center,
Shaare Zedek Medical Center, Jerusalem

Prof. Dan Turner | Dr. Oren Ledder | Dr. Raffi Lev-Tzion |
Dr. Eyal Shteyer | Dr. Elena Rachman | Dr. Esther Orlansky Meyer
Ronit Dadosh, Dietician | Anat Horesh, RN, PIBD nurse

- 09:00–09:30 Overview of the Anne and Joe Turner Institute and merit of a multidisciplinary one-stop-shop (Dan Turner)
- 09:30–10:00 Personalized medicine in IBD (Peter Lewindon)
- 10:00–10:20 Case discussion (delegate; led by Esther Meyer)

10:20–10:45 Morning tea and meet the team

- 10:45–11:10 How do we implement nutrition in IBD - the "Tasty & Healthy" approach (Lihi Godny)

11:15–17:30 Six groups in rotating stations:

- Station #1 Interactive multidisciplinary CD case with an actor (Dan Turner, with dietician and Yaron Armon (surgeon))
- Station #2 Interactive multidisciplinary UC case with an actor (Oren Ledder & Eyal Shteyer (hepatologist) with PIBD nurse)
- Station #3 Hands-on, bowel, US and MRE - guided reading on real patients (Raffi Lev-Tzion & Elena Zharkov)
- Station #4 An interactive rolling complicated CD case (Richard Russell)
- Station #5 Experience REDCap data management and SPSS (Gili Focht & Noa Asayag)
- Station #6 Case presentations by delegates in 3 separate group (led by Peter Lewindon)

11:15–13:15 1–2 of 6 rotating stations

13:15–14:00 Lunch

14:00–16:00 3–4 of 6 rotating stations (cont.)

16:00–16:30 Coffee break

16:30–17:30 5 of 6 rotating stations (cont.)

17:30–18:30 6 of 6 rotating stations (cont.)

18:30 Departure to dinner overlooking the old city of Jerusalem

Wednesday (Jan 29th, 2020)

08:30–09:45 Complicated Crohn's Disease

- Live case – endoscopic balloon dilatation (Oren Ledder)
- Treatment of fistulizing and stenotic disease – two sides of the same coin:
 - The surgeon's perspective (Yaron Armon)
 - The medical perspective (Raffi Lev-Tzion)

09:45–10:30 Study design and how to write a research protocol (Dan Turner)

10:30–11:00 Morning tea

- 11:00–12:15 Formulating a research question into a grant proposal (5 separate working groups)
- 12:15–13:00 Presentation of the protocols in 3 groups (Discussion led by Dan Turner, Richard Russell, Peter Lewindon)

13:00–14:00 Group photo and Lunch

14:00–15:00 "No cure? We have lots to offer!"

- Coordinating a multi-disciplinary team (Anat Horesh, PIBD nurse)
- In practice - Support interventions: What is there to offer? (Maya Mizrahi, medical psychologist)
"Even better than drugs..."
- "Even better than drugs..." - non medical IBD interventions (Rinat Koren, medical psychologist)
- 15:00–16:00 MRE for the non-radiologist: hands-on training in the computer training center (training led by Ruth Cytter, pediatric radiologist)

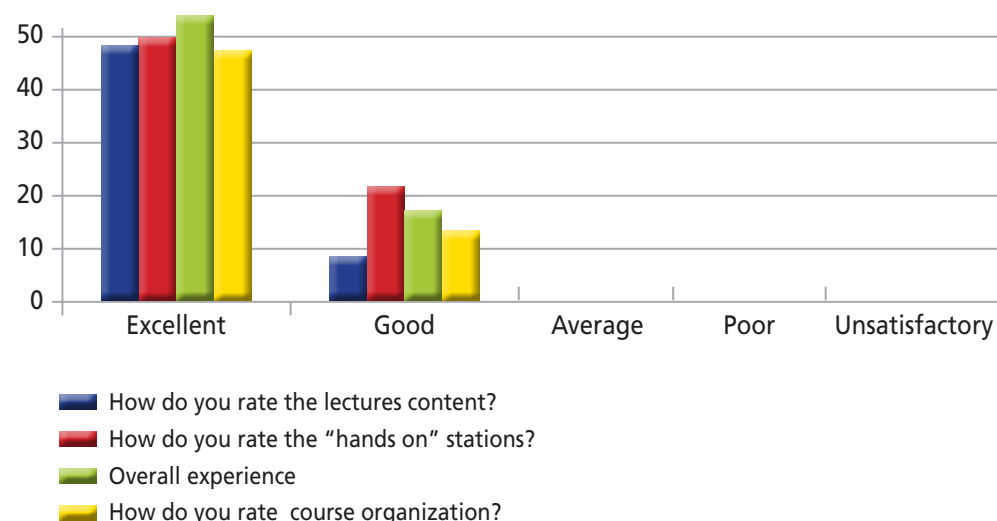

16:00–16:30 Coffee break

16:30–17:15 Wrap-up: Taking home what we learnt to make the most of our treatment options (Richard Russell)

17:15–17:30 Farewell

Here are some of last year's comments

- Great workshop. Really appreciate the hands on, practical approach. Great diversity!
- This was super! Very impressive by your IBD care (team, clinic etc) and also of your over-all "take care of patients" way!
- Excellent course – a fantastic experience – thank you!
- Thanks for all – is a life experience.
- Absolutely loved the experience. The team's passion & commitment to their patients was invigorating. Thank you so much!
- Excellent – the best and most practical mono-disease course I have been to.
- It is great pleasure to me to have this integrative multidisciplinary approach to IBD. Will help me a lot in my overall approach and treatment to patients. Thanks.
