LIVE WEBINAR: NOVEMBER 16, 2016: 8:00 – 9:00 P.M. ET

**The New Design for EnFit® Connectors:
New ISO Standards for *Enteral Connectors***

***introducing the new international standards in medical device tubing connectors
- raising awareness and encouraging adoption***

(in collaboration with The American Society for Parenteral and Enteral Nutrition)

As the International Organization of Standardization (ISO) is recognized internationally as “THE” resource to drive conformity, the ISO has set New ISO global standards for patient-safe enteral connectors.

The new connectors will modify the delivery of enteral nutrition, and hydration as well as prescribing, dispensing, and administering enteral medications. The new EnFit syringe design will carry a risk of dosing inaccuracy – both over-dosing and under-dosing – due to the dead space of the new EnFit Syringe design.

Clinicians, nurses, dietitians, pharmacists, home care agencies, parents caring for children who are enteral nutrition feeding dependent and/ or with enteral nutrition feeding devices need to be educated about this major change to ensure patient safety and delivery of excellent quality of care.

Join us as there is lack of awareness across the board, which will lend itself to room for error. This information has not received enough attention especially about dosing accuracy.

FACULTY

Chair

Ruba Abdelhadi, MD, Director of GI Resident Education-Pediatric Residency Program, and Director-Nutrition Services Program at Children’s Mercy Hospital in Kansas City, Missouri

Peggi Guenter, PhD, RN, FAAN, Senior Director of Clinical Practice, Quality, and Advocacy American Society for Parenteral and Enteral Nutrition in Silver Spring, Maryland

Justine Turner, MD PhD, Associate Professor, Division of Gastroenterology and Nutrition Department of Pediatrics, University of Alberta, Edmonton, Canada

CME Reviewer

Deepali Tewar, MD, Assistant Professor, Pediatric Gastroenterology and Hepatobiliary Diseases at New York Medical College, Attending Gastroenterologist at Maria Fareri Childrens Hospital, Westchester Medical Center, Boston Children's Health Physicians Westchester, NewYork

NASPGHAN designates this activity for a maximum of 1.0 *AMA PRA Category 1 Credits*TM

NASPGHAN is a Continuing Professional Education (CPE) Accredited Provider with Commission on Dietetic Registration (CDR). Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 1.0 continuing professional education units (CPEUs) for completion of this program.

Support for this program provided by Halyard and Boston Scientific
