Seminar on Functional Lower Gastrointestinal Disorders

Friday, September 18, 2020

VIRTUAL CONFERENCE

8:00 am - 3:45 pm

Course Description:

An innovative conference that attracts a wide audience of both adult and pediatric physicians from several specialties and maintains their attention through unique presentations of combined adult and pediatric Lower Functional Gastrointestinal disorders. It is designed for physicians and allied healthcare providers. This program will provide attendees with updates in clinical management of important and/or commonly seen Functional lower GI disorders seen in both adult and pediatric Gastroenterology. This live activity will include didactic lectures, panel discussions, case presentations, and Q&A sessions to create a highly active environment for the learners.
