Inaccurate Weight Perception is Associated With Extreme Weight Management Practices in US High-School Students

**Learning Objectives:**

1. *To appraise the magnitude of inaccurate weight perception among US high-school students*
2. *To understand the role weight perception as it relates to extreme weight management practices*
3. *To appreciate how the relationship of weight perception and extreme weight management practices is affected by body mass index, sex, and race/ethnicity.*

Lubiprostone for the Treatment of Functional Constipation in Children

**Learning Objectives:**

1. *To understand the mechanism of lubiprostone.*
2. *To know the dosing possibilities for lubiprostone in children*
3. *To recognize the side effects of lubiprostone.*

**Principal Faculty and Credentials**

Faculty credentials and disclosures are listed in the Journal articles

**Date of Release:**

March 1, 2014

**Date of Last Revision:**

March 1, 2014

**Date of Expiration:**

December 1, 2015

**Necessary Hardware and Software:**

Adobe

Compatible Web Browser listed below:

- Internet Explorer version 6.0 or higher
- Mozilla Firefox 1.0 or higher
- Netscape Navigator 6.0 or higher
- Apple – Safari

**Estimated Time to Complete this Activity:**

It is estimated that it will take 1 hour to read the article and complete the post test.

**Method of Physician Participation:**

All participants read an article, take a post-test with a minimum of 100% passing score and complete an activity evaluation at the end of the activity before being able to print a certificate of completion.

**Policy on Privacy and Confidentiality:**

The personal information collected on this evaluation site is used only for our records and is not distributed to any individuals or companies.

**Bibliographic Sources**

References are provided in the Journal article.

**Copyright:**

All faculty in this activity have given their permission for publication.

**Contact Information:**
